Introducing ARRCOAT's Seamless Flooring Collection—where sustainability meets sophistication. Unlike conventional micro-concretes, our revolutionary flooring range is 100% cement-free, crafted with advanced lime-based formulations (PP400 & PP500) that are not only VOC-free but also incredibly durable. These flooring systems redefine the concept of "micro-concrete" by eliminating harmful cement components, making them safer for applicators and healthier for living and working environments.
